

Join us for Healthcare reality tour & demonstration in Nashville, Tenn. on Sept. 21–23rd

HealthCare is a Human Right

National Days of Action

Sept 21st– Reality Tour & healthcare documentation

Sept 22nd– 3 pm Rally at Capital building in Nashville

Sept 23–10am National strategy meeting

We refuse to die in silence

Join Medicaid recipients and the uninsured from around the country as we travel to Ground Zero in the battle for the human right to healthcare.

Tennesseans Fighting For Our Lives is a group of those who will die as a result of losing TennCare. For several months they have been holding a sit-in at the Governor's office.

Current Situation:

- 226,000 people will have their healthcare coverage cut completely
- 97,000 people will have their TennCare benefits drastically reduced and will be cut off entirely in the next year
- 396,000 people no matter how sick they are will have their healthcare treatments and services drastically limited
- Every single person who remains on the program will face a new definition of “medical necessity” that will limit their ability to obtain needed care.
